Wheel dumper DW20

Material number 1000390632

The DW20 is a pure offroad workhorse. The hydrostatic all wheel drive, the articulated pendulum joint and the limited-slip differential overcome any obstacle without any difficulties. The very clear dashboard provides pleasant operation and quick access to all elements.

Product details

DW20 - Perfect for off-road and easy to handle

- With the hydrostatic all-wheel drive, the driver can concentrate on his work without having to change gears frequently. A constant tractive force from 0 to maximum speed and the hydrostatic braking complete the pleasant driving experience.
- The very clear dashboard provides pleasant operation and quick access to all elements. The joystick combines many functions in a single action: skip control, change of gear and direction of travel.
- The spring-loaded parking brake is wear-free and therefore extremely durable. It is actuated automatically as soon as the engine is switched off, without any additional effort.
- The extended maintenance interval of 500 operating hours additionally reduces downtimes. This saves additional time and money.
- Besides the very high safety standards, a lot of additional safety options can be bought ex factory, like extra cameras and lighting, a seat contact switch and many more.

Configuration of Wheel dumper DW20 on 23/07/2020

Please Note

This product availability can vary from country to country. It is possible that information / products may not be available in your country. More detailed information on engine power can be found in the operator's manual; the started power may vary due to specific operating conditions Subject
