Tracked Conventional Tail excavator ET65

Material number 1000303772

A high-performance machine with the most compact dimensions, tremendous excavation power and low consumption.

Product details

- Precise and sensitive operation due to the load sensing hydraulic system with LUDV (load-independent flow control)*
- Low consumption due to the economical ECO mode
- Up to 5 auxiliary control circuits for the most varied attachments
- Easy maintenance and service due to the tiltable cabin as well as diagnostic tool
- Optimal force distribution and maximum dumping height due to the 3-point kinematics
- Significantly lower height and width compared to competitor's models and optimal stability due to the low center of gravity
- Optimal visibility conditions due to the offset boom and optimized engine cover shape
- Standard comfort cabin also available with 7" display, jog dial system, air-sprung operator's seat and many more options

Configuration of Tracked Conventional Tail excavator ET65 on 23/07/2020

Please Note
